SUMMARY

Full Stack MERN Developer with hands-on experience building scalable web applications using **MongoDB, Express.js, React.js, and Node.js**. Proficient in developing **RESTful APIs**, implementing secure authentication, and creating responsive user interfaces. Strong foundation in **Data Structures & Algorithms** with 200+ problems solved. Actively seeking internship or entry-level software development opportunities to contribute and grow in a fast-paced engineering environment.

EDUCATION

Pune Institute of Computer Technology (PICT)

2024 - 2027

Bachelor of Engineering in Electronics and Telecommunication Engineering

Pune, India

- CGPA (till Semester IV): 8.50/10.0 — SGPA (Semester V): 9.19/10.0

Karmayogi Institute of Technology (Polytechnic) Shelve

2021 - 2024

Diploma in Electronics and Telecommunication Engineering

Pandharpur, India

- Percentage (Aggregate): 93.53%

EXPERIENCE

Fortune Cloud Technologies | MERN Stack Intern

May 2025 – July 2025

- Completed structured training in **MERN Stack (MongoDB, Express.js, React.js, Node.js)** through hands-on full-stack project development.
- Developed RESTful APIs, implemented authentication, and integrated MongoDB database for scalable web applications.

PROJECTS

CampusFlow | Lost & Found | React.js, Node.js, Express.js, MongoDB

- Developed a digital **Lost & Found platform** enabling students to report lost/found items, upload images, and track claim status in real time while security guards verify claims and schedule item handovers.
- Implemented **role-based access control** and analytics dashboards using recharts, helping admins monitor users and claims efficiently while reducing item return time from weeks to a few days.

Food Delivery | E-Commerce Site | React.js, Node.js, Express.js, MongoDB, Stripe

- Developed a full-stack **food ordering platform** with secure user authentication, dynamic menu browsing, and **shopping cart** functionality enabling seamless online food ordering.
- Integrated stripe payment gateway and built an **admin panel** for food management, order tracking, and real-time status updates, ensuring secure transactions and efficient order processing.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, C++

Backend Development: Node.js, Express.js, RESTful APIs

Databases: MySQL, MongoDB

Frontend Technologies: React.js, HTML5, CSS3

Developer Tools: Git, GitHub, VS Code, Apache NetBeans, Postman

Core Fundamentals: Object-Oriented Programming (OOPS), DBMS, SDLC, OS, CN

ACHIEVEMENTS

- Solved **200+ Data Structures & Algorithms problems** in **Java** on LeetCode, GeeksforGeeks and CodeForces demonstrating strong problem-solving ability.
- Awarded **Gold Medal** for securing **First Rank (College Topper)** in Diploma Program.
- Won **Second Prize** in Project Competition at Karmayogi Engineering College.
- **Cummins Scholar '25** – Selected as a scholar under the Cummins Scholarship Program.

Certifications

- **Java Programming Certification — Barclays LifeSkills Programme (2023)**
